CLAIMS 1-19 ARE PRESENTED FOR EXAMINATION

On January 16, 2008, a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), as well as an Information Disclosure Statement, was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on January 16, 2008 has been entered. Accordingly, as reflected by the attached, completed copy of form PTO/SB/08A, (modified), the cited reference has been considered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejection - 35 USC § 103

Claims 1-19 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Tanaka et al., (U.S. Patent No. 6,538,152) in view of Short et al., (U.S. Patent No. 6,720,014) and Guittard et al., (U.S. Patent No. 6,262,115), each of record, for the reasons of record as set forth in the previous Office actions dated July 16, 2007, (final rejection) and January 28, 2008, (advisory action), which reasons are here incorporated by reference.

Applicants' remarks and claim amendments have been carefully considered, but fail to persuade the Examiner of error in his determination of obviousness.

In particular, Applicants have amended the claims by changing "A method for treating urinary incontinence with overactive bladder", to ---A method of treating urinary ~~incontinence~~ urgency associated with overactive bladder...---.

This claim amendment is not seen to patentably distance the presently claimed subject matter from that of the prior art because not only does the art expressly teach the treatment of overactive bladder, but urinary urgency is recognized in the art as being associated with such overactivity. One of ordinary skill in the art would have readily recognized that by treating overactive bladder, one would also be ameliorating the sequela of such overactivity, including urgency.

Accordingly, for the reasons set forth above, the claims are deemed properly rejected. None of the claims are currently in condition for allowance.

This is a continued examination of Applicants' earlier filing in Application No. 11/114,892. All claims could have been finally rejected on the grounds and art of record and those necessitated by Applicants' amendment in the next Office action if they had been entered in the earlier application just prior to a final rejection. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1614

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
